

TECHNICAL DATA SHEET

SF66 AVENGER WATERPROOF/ HRO BOOT

DESCRIPTION

The Avenger boot features a waterproof membrane carefully sewn into the upper to keep feet dry. It has both steel toe cap and midsole protection, plus a heavy duty bump cap for added durability. The ultra hardwearing PU/rubber, HRO rated, anti-slip sole is heat resistant up to 300°C making it ideal for demanding environments.

SIZES

UK 6-13

STANDARDS

EN20345 S3
WR HRO SRC

KEY FEATURES

- Waterproof leather upper
- Steel toe cap and midsole
- Heavy duty bump cap for added durability
- 300°C heat resistant, anti-slip, anti-static and fuel oil resistant PU/rubber sole
- Energy absorbing heel reduces foot fatigue

- Utilities

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
