

TECHNICAL DATA SHEET

SF94 PREMIUM PU WELLINGTON - WHITE

DESCRIPTION

Blackrock's premium safety wellington is made from hardwearing polyurethane (PU) to withstand tough conditions, which also provides a level of insulation against the cold. It features both steel toe cap and midsole protection, plus a kick spur on the heel for easy removal. The sole is anti-slip, anti-static and fuel oil resistant.

SIZES

UK 3-13

STANDARDS

EN20345 S5 SRC

KEY FEATURES

- Durable PU construction
- Steel toe cap and midsole
- Kick spur on heel for easy removal
- Anti-slip, anti-static and fuel oil resistant sole
- Energy absorbing heel reduces foot fatigue

FEATURE ICONS

TECHNICAL DATA SHEET

MATERIALS

- PU upper
- PU/PU sole
- Steel toe cap
- Steel midsole

TYPICAL INDUSTRIES

- Construction
- Facilities management
- Utilities
- Agriculture & landscaping
- Hygiene & catering

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
