SRC02B HYGIENE CLOG

WASHABLE
MICROFIBRE
UPPER

PROTECTIVE STEEL
TOE CAP

SELF-CLEANING
ANTI-SLIP SOLE

DESCRIPTION

Ideal for indoor cleanroom environments such as food preparation, medical and pharmaceutical where there is a risk of slipping on wet or dry tiled surfaces, Blackrock's Hygiene Clog features a steel toe cap and water resistant microfibre upper that can be machine washed at 40°C. The lightweight, anti-slip PU sole is self-cleaning, anti-static and resistant to oils, acids and fuel oil.

SIZES

Size 3-13 (available
in size 6.5 and 10.5)

STANDARDS

EN20345 S2 SRC

KEY FEATURES

- Machine washable at 40°C

MATERIALS

- Microfibre upper
- PU sole
- Steel toe cap

TYPICAL INDUSTRIES

- Pharmaceutical
- Hygiene & catering

CERTIFICATION/MARKINGS

EN ISO 20345:2011 is an internationally recognised standard which specifies requirements for safety footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example S3 WR HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as protective toe cap, water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
