

TECHNICAL DATA SHEET

OF02 TACTICAL MARSHAL HIKER

**HSL GRIP
LEVEL 4 SOLE**

**WATER-RESISTANT
LEATHER UPPER**

**BLOOD BORNE
PATHOGEN RESISTANT**

PADDED INSOLE

**PROTECTIVE
NON-METALLIC MIDSOLE**

DESCRIPTION

A non-safety occupational style with a water-resistant leather upper, the Marshal hiker is fully non-metallic and features a midsole to protect the foot against objects that penetrate from below. With Blackrock's UK HSL GRIP 4 rated HexaGrip sole giving market-leading slip resistance to keep you on your feet when it matters most and EaziStep padded insole for maximum comfort when on your feet for long periods, it is ideal for personnel who are not required to wear safety footwear as part of their uniform.

SIZES

UK 3-15

STANDARDS

EN20347 O3
FO HRO SRC

KEY FEATURES

- Lightweight metal-free composite midsole
- Water-resistant leather upper
- HexaGrip ultra non-slip sole
- 300°C heat resistant, anti-static and fuel oil resistant PU/rubber sole
- EaziStep padded and breathable insole for comfort
- Blood borne pathogen resistant

Blackrock's HexaGrip technology features a hexagonal sole pattern that gives significantly increased grip, achieving a 4 star rating in the UK HSE GRIP scheme, far exceeding the international SRC slip resistance standard.

Blackrock's EaziStep insole is made from lightweight PU/mesh that gives all day comfort and relieves tension in areas vulnerable to stress such as the heel area and ball of the foot.

FEATURE ICONS

MATERIALS

- Water-resistant leather upper
- PU/rubber sole
- Non-metallic woven midsole

TYPICAL INDUSTRIES

- Emergency services
- Transport
- Prison service
- Security
- Couriers & postal workers

CERTIFICATION/MARKINGS

EN ISO 20347:2012 is an internationally recognised standard which specifies requirements for occupational footwear. Any product which references an EN standard must have the relevant certification attributed to the product code found on the product.

The product standard can be found on the tongue label and should match that stated on the certification. The standard is usually a group of numbers and letters, for example O3 FO HRO SRC. These letters and numbers denote the characteristics that make up the footwear you are buying which include properties such as water-resistant uppers, protective midsole, fuel oil resistance, anti-static, heat resistance and slip resistance.

Users are advised to select the required class of performance based on the risk assessment of the location and/or task as appropriate.
