

PRODUCT INFORMATION

Item Number	PER
Size Range	6-11
Primary Coating Polymer	Polyurethane
Grip	Polyurethane Coating
Abrasion Level	3

FEATURES

Recycled Nylon Lining: The first glove in the Polyflex Eco family to be made from recycled nylon. Doubling down on our efforts to manufacture products from recycled sources where possible. 89% of the liner is made from recycled nylon, which equates to 70% of the total glove weight.

18 Gauge Recycled Nylon: The 18 gauge yarn ensures the glove is as dexterous as possible. The recycled nylon is specifically chosen for its strength to ensure that users are protected.

Unique Feature: Tactile touch sensitive fingertips enable the wearer to use touch screen machinery or touch screen devices with precision and without the need to remove the glove

Abrasion Resistant: Achieves an excellent abrasion score as defined by European Standard EN388

Environmental: Packed without the use of plastic; reducing the overall weight of packaging

Primary Coating Polymer: Polyurethane

Fit: Soft seamless knitted liner provides superior comfort for this level of protection

Ultra Lightweight: Polyflex® Eco Air is the lightest dipped product in our range, and represents the closest 'second skin' feel whilst delivering the protection the industry requires

SECTORS

Automotive • Construction & Utility • Engineering and Manufacturing • Warehousing, Transport and Logistics

STANDARDS

EU Type Examination carried out by SATRA.

3131X

STORAGE INSTRUCTIONS

Store in dry conditions, away from direct sunlight and extreme heat. You are advised to retain the packaging for reference. Always inspect gloves prior to use and do not use if damaged or showing signs of wear.

DISPOSAL INSTRUCTIONS

Dispose of responsibly and in line with local guidance.
