

# ANTIBAC FOAM

Antimicrobial, Perfumed Rich-Cream Foam Hand Wash

## PRODUCT DESCRIPTION

Antimicrobial foam hand wash designed for professional use with added moisturisers and pleasant mountain dew fragrance. Contains Accelerated Hydrogen Peroxide\*. Formulated without Ammonium Quat.

## BIOCIDAL EFFICACY:

- Bactericidal
- Yeastical
- Virucidal on enveloped viruses

## WHERE TO USE

Washroom areas in offices, education, nurseries, public facilities, healthcare and aged care environments where a higher level of hand hygiene is preferred.

## INSTRUCTIONS FOR USE

- Apply 1-2 doses to dry hands.
- Rub in well across all parts of the hands for 30 seconds.
- Rinse hands thoroughly with clean running water and dry well.

	DESCRIPTION	BENEFITS
FEATURES	Rich-cream foam	Excellent skin feel properties both during and after use.
	Pleasant 'mountain dew' fragrance	Designed for use in a broad range of washrooms.
	Reduces water consumption <sup>2</sup>	Can save up to 45% on water consumption during handwashing compared to lotion soaps.
	Excellent cost in use	Highly economical, only one dose is required to provide effective hand cleansing.
	Convenient, quick and easy	Dispenses foam on the hands which is instantly ready for washing; quickly and easily rinses from hands and sinks.
	Mild formulation	Dermatologist tested to verify and confirm this product does not elicit dermal irritation.
	Independently dermatologically tested	Patch testing shows the product to be non-irritating in use.
	Virucidal activity	In accordance with EN14476, effective against all enveloped viruses based upon evaluation of product against Vaccinia virus using a 30 second contact time. Deactivates SARS-CoV-2 (30 seconds).
	Degreasing Action	Specifically formulated to provide an effective physical cleaning action for use in all food industry environments where greasy soiling are encountered.
	Hygienic cartridge	The cartridge is ultrasonically sealed during the manufacturing process to prevent air ingress into the cartridge during normal use, thus minimising the risk of external contamination.
INGREDIENTS	Contains Accelerated Hydrogen Peroxide* <sup>1</sup>	Provides broad spectrum antimicrobial activity. Kills up to 99.999% of many common bacteria and 99.99% of many common yeast and enveloped viruses, when used as directed.
CERTIFICATES/COMPATIBILITY	ECARF Certified <sup>4</sup>	This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. For more information go to <a href="http://Ecarf-siegel.org/en/about-seal">http://Ecarf-siegel.org/en/about-seal</a>

## Antimicrobial, Perfumed Rich-Cream Foam Hand Wash

### STATUTORY REGULATIONS

This product meets the current national regulations for Biocidal products.

### SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from <https://www.scjp.com/en-gb/safety-data-sheets>

### SHELF LIFE

This product has a shelf life of 24 months from the date of manufacture when stored unopened at room temperature.

### HANDLING INSTRUCTIONS

Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water (for at least 10 minutes) and seek medical advice. Please refer to label or SDS sheet for safety information.

### QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

#### 4 ECARF SEAL OF QUALITY

This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. Cosmetics can receive the seal of quality for meeting the following criteria:

1. Quantitative risk assessment of the product ingredients with respect to their potential for skin sensitisation, taking into account their specified conditions of use and amount.
2. Medically supervised clinical trials by volunteers with atopic dermatitis.
3. Approved system of quality control management.

For more information go to <http://ecarf-siegel.org/en/about-seal>.

### PRODUCT SAFETY ASSURANCE

#### Product Safety Assessment

The product has been assessed by an independent toxicologist and is declared safe for intended use on hands of adults and children above 3 years of age when used as directed, meeting all relevant regulatory requirements.

#### Skin Compatibility Test

The dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 8 week Human Repeat Insult Patch Test (HRIPT).

#### WATER SAVING

Independent tests show that washing hands with foam soap rather than lotion soap can reduce average water consumption by as much as 45% when using a modified hand wash approach of dispensing soap on dry hands and turning the tap on only when rinsing off (SC Johnson Professional Sponsored Study: How a simple change in the washroom can significantly reduce water consumption and associated costs. Durrant and McKay, 2011).

**NB: Use Biocides Safely. Always read the label and product information before use.**

### BIOCIDAL PRODUCT TESTING

TEST TYPE	TEST STANDARD	COMMENT
Bactericidal	EN1499	Passes standard using 1.5ml for 30 seconds. Tested against <i>Escherichia coli</i> (G-ve).
	EN13727	Passes using standard 30 second contact time. Tested against <i>Staphylococcus aureus</i> , <i>Escherichia coli</i> , <i>Enterococcus hirae</i> , <i>Pseudomonas aeruginosa</i> and <i>Proteus mirabilis</i> . Based upon the EN13727 norm, the product is declared under the standard as effective against all bacteria (vegetative) including the following food spoilage organisms <i>Campylobacter jejuni</i> , <i>Listeria monocytogenes</i> and <i>Salmonella enterica</i> .
Yeasticidal	EN13624	Passes standard using a 30 second contact time. Tested against <i>Candida albicans</i> (yeast).
Virucidal	EN14476	Passes standard for virucidal activity against enveloped viruses using a 30 second contact time. Tested against Vaccinia virus. Deactivates SARS CoV-2 (30 seconds). Based upon the EN14476 norm, the product is declared under the standard as as having virucidal efficacy against enveloped viruses after evaluation against Vaccinia virus.
